WASHINGTON, Nov. 4 - Austria-Hungary, the last and most powerful ally of Germany, passed out of the world war today under terms of ab-

ect surrender. Not only have the armed forces of the once powerful Austro-Hungarian empire laid down their arms to await the end of the war and peace terms dictated by the allies and the United States, but Austro-Hungarian territory is open for operations against Germany. Even the muni-tions of the former ally are to be ised against the kaiser's army if refusal to accept conditions new being prepared for them make prolonged

ighting neressary. The terms which stopped the vic-torious advance on the Italian front were accepted by the Austrian commander-in-chief in the field in the came of the Vienna government and thorough beating already adminis-tered which had converted the de-feated army into a disorganized, fleeing hords.

Terms Drastic.

Even the terms Imposed previously upon Bulgaria and Turkey hardly were so drastic. In addition to all of the military precautions, the Austrians are compelled to retire from a wide strip of termines. from a wide strip of territory with-ing the borders of their empire when the war began, surrenderinng all of Italia Irredentia and thereby losing any advantage for argument over boundaries around a peace table. Austria-Hungary's navy, which either must be delivered to the alwhich

r disarmed under the terms of armistice that country has signed, consists of approximately 75 ships, according to the latest official information reaching the navy department. These figures, Secretary Daniels announced today, were combiled without reference to recent reported losses of two Austrian battle-ships.

ships.

The total of submarines is placed at 45 with 15 battleships, an equal number of cruisers, 21 torpedo bou torpedo gunboats, 6 lestroyers, 10 torpedo gunboats, 6 torpedo boats, 45 mine layers, 1 river monitors, 7 patrol boats, armed steamers, 6 scouts, 1 river torpedo boat and 2 trawlers.

More Than Asked For.

A map of survey of the geograph
il lines fixed for Austrian evacua tion shows that the area is ever freater than that set by the limitian as the goal of their ambition whe they entered the war. At that time the Italian leaders carefully outline and indicated on their war maps the erritory along their borders while they deemed it necessary that the acquire for racial and sentimenta reasons and also to insure the secur-ity of their frontiers.

In decreeing Austria's surrende terms, the supreme war council a versailles has followed this outlinversalles has followed this outline closely, but have enlarged upon it to some extent. The right of occupation of these vacated provinces is subpulated, but it is to be noted that for the time being civil government is to be administered by the existing ocal civil authorities in co-operation with the occupying garrisons. This means that the whole question of final disposition of the territory involved is left to be settled at the peace table. peace table

Why Chandler Should Be Returned to Congress

Eliminating every other good reason why Bert Chandler should be returned to congress, the one fact that he is a member of the fact that he is a member of the committee on Indian affairs should cause every voter in the first dis-trict to give his support to the present congressman.

Eighty per cent of the entire-work of the committee on Indian affairs is taken up with Oklahoma work

Eighty per cent of the work of

the Indian department is work per-taining to the welfare of Oklahoma. The state of Oklahoma now has two democrats, Hastings and Car-ter, and one republican, Bert Chandler, on the committee on In-dian affairs.

The fact that three Oklahoma congressmen served on that committee during the past session of congress, is responsible for the last session passing the very best Indian appropriation bill ever passed—it contained more provisions beneficial to Oklahoma, and appropriated more monies than any Indian bill in the past thirty

This was made possible because Oklahoma had three members of the total of 20 on the committee.

If Bert Chandler is defeated, a republican from some other state

will take his place on the Indian committee and Oklahoma will suf-fer irreparable loss.

The first congressional district is all Indian country, including the Osage nation, and to properly ad-minister the affairs of the Indian committee must have knowledge and experience in Indian affairs. Bert Chandler has had that ex-perience, and he has had two years' experience in congress, which is a most valuable asset to the people of this district, and they should tarry long and think deep before they vote Bert Chandler out of congress and vote a hovice in, whose only claim for preference is that he is a professional itinerant non-resident, non-voting politician.
